

How to set up DOSBox for fullscreen.txt  
after installing DOSBox then drill  
down to  
DOSBox folder on C drive and replace  
the original  
DOSBox 0.74 Options file with the one  
in this folder.

Local Disk (C:) > Program Files (x86)  
> DOSBox-0.74

The Following changes have been made  
to play in  
full screen.

```
fullscreen=true  
fulldouble=false  
fullresolution=0x0  
windowresolution=0x0  
output=overlay  
autolock=true  
sensitivity=100  
waitonerror=true  
priority=higher,normal  
mapperfile=mapper-0.74.map  
usescancodes=true
```
